U.S. FDA REQUIRES RENEWAL OF REGISTRATION AND CONSENT TO INSPECTION

The new U.S. FDA Food Safety Modernization Act ("FSMA") imposes new requirements on companies that supply food, beverages, and dietary supplements to the United States. Now, you must:

- Renew your FDA Food Facility Registration in 2012 and biennially thereafter.
- Consent to FDA inspections (increasing from 600 in 2011 to 19,200 by 2016).

Your shipments to the United States may be refused entry if your food facility registration is not renewed properly under FSMA or if you refuse to consent to FDA inspection.

All registered facilities outside the United States must appoint a U.S. Agent for FDA communications. The U.S. Agent for FDA communications serves a different function than your importer, customs broker or commercial distributor. FDA sends communications to your designated U.S. Agent, including information regarding inspections, often requiring an immediate response. Due to FSMA's new inspection schedule, it is now critical to have a professional U.S. Agent handle your FDA communications.

Registrar Corp can renew your registration properly, and handle your FDA communications professionally as your U.S. Agent. In addition, as part of our U.S. Agent service, Registrar Corp will dispatch a food safety expert trained in FDA inspections to your facility to help you prepare if you receive a notice of FDA inspection after October 1, 2012. This assistance is included at no additional charge other than travel and lodging expenses.

To designate Registrar Corp as your U.S. Agent for FDA communications, simply follow these three steps:

- 1) Complete the attached "Registration" form.
- 2) Complete the attached "Agreement" and "Payment" forms.
- 3) Fax the completed "Registration," "Agreement," and "Payment" forms to: +1-757-224-0179.
